

Black and White Variation

BOM for October

12 1/2" 12" finished

I would like to use the "playtime" block from last month with a variation in fabrics for our October block. Make this block in black and white prints (black on white, white on black). Choose any combination of the black and white prints. Just be sure there is plenty of contrast in the three fabric choices. This is such a simple block so this should give you a bit of a break for this month
